REVIEW

OF THE

MANAGEMENT OF ESTATES

IN THE

COURT OF WARDS,

OR UNDER THE

TALUQDARS' RELIEF ACT

IN OUDH

FOR THE YEAR ENDING 30TH SEPTEMBER, 1885.

As in the previous year, the report deals with the statistics of 58 estates, five of the properties included in the last report having been released and five new estates brought under management. Of four of the released estates—Rámnagar, Dhundpur, Jamu, and Bela Bhela—an account was given in paragraphs 25 to 28 of last year's review. The fifth estate, Bangaha, was made over to the proprietor shortly after the close of the year on his attaining his majority. It was previously leased to his mother. The estate when handed over had, in addition to a large cash balance, investments of over a lakh of rupees; and it is fortunate that there is every hope of the young owner, Sardár Baghel Singh, putting to a prudent and sensible use the large fortune placed at his disposal. The estates brought under management for the first time were Samanpur, Mungri, and Musipur Chandipur in the Fyzabad district, and Pandwansi and Dahayawan in Partabgarh. These are all noticed in tne appendix.

2. The gross rental of the estates under management amounted to Rs. 15,84,161; and the arrears of previous years to Rs. 2,11,308. The collections were Rs. 15,43,177 on account of current rents, and Rs. 58,802 on account of arrears, the total amount realised being thus slightly in excess of a year's rental.

3. The following statement compares in each district the rental of the estates that were under management in the two past years:—

District.	Rental for 1883-84.	Rental for 1884-85.
	Rs.	Rs.
Lucknow	68,920	68,139
Bara Banki	1,74,799	1,76,617
Sitapur	33,535	37,373
Hardoi	1,10,900	1,11,208
Kheri	58,909	60,299
Fyzabad	75,545	76,918
Bahraich...	79,442	81,126
Gonda	1,07,524	1,08,894
Rae Bareli	4,99,738	4,85,622
Sultanpur	2,31,350	2,36,627
Partabgarh	95,387	99,300
Total ...	15,36,049	15,42,123

There are no very important changes to notice. Additions to estates have in some cases caused an increase in the rental; while, on the other hand, the income of the Pandriganeshpur estate has been reduced from Rs. 70,000 to Rs. 53,000 by the redemption of a number of villages that were held by the estate in mortgage. In the Rae Bareli district most estates show progressive increase in rental, which is also noticeable in some of the estates in Fyzabad, Sultanpur, and Partabgarh. In Fyzabad the increase is explained to be owing to the exclusion of middlemen and enhancement in places where improved means of irrigation have been provided. In Sultanpur the same causes have been at work, and enhancements pure and simple have also been resorted to in cases where tenants have been, by the favour of estates' officials, allowed to hold land at exceptionally low rates. In the Kaithola estate the enhancements, which were the result of arrangements made by Major Grigg, amounted to six pies in the rupee on the rental of the estate. It is understood that the increases were due, as explained last year, to the improvements effected and the displacing of middlemen. Further enhancements were made during the year, for which there seems to be less reason, and these will be noticed later on.

4. The demands and collections of rent from land are shown in the following abstract of appendix I:—

District.	Number of estates.	*Demand.*			*Collections.*			*Percentage of collections*		
		Current rents.	Arrears of rent.	Total.	Current rents.	Arrears of rent.	Total.	Of current rent to demand.	Of arrears rent to demand.	Of total collections to annual rental.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Partabgarh ...	8	1,03,452	3,569	1,07,021	1,02,739	1,599	1,04,338	99·3	44·8	100·8
Total ...	58	16,84,161	2,11,308	17,95,469	15,43,177	58,801	16,01,978	97·4	27·8	101·1

The season was in most districts an exceptionally favourable one. In the Hardoi district, however, the rice crops were swamped by floods; and in Bahraich and Kheri also the cultivation suffered severely from excessive rain. Except in these districts, the collections of current rents were especially good, and a considerable reduction was made in the arrears of past seasons. The Hardoi district has been unfortunate in the managers selected for the different estates, and changes of district officers have doubtless rendered supervision difficult. The large balances in this district have been very carefully examined by the Commissioner, whose searching inquiry into the condition of each estate leaves nothing to be desired. The balances are to a great extent irrecoverable: a part consisting of sums that, owing to diluvion, should never have been shown as demands. These sums should now be removed from the accounts. Still larger items are due to the fraud of patwáris employed as collectors, who either embezzled receipts themselves, or allowed the proprietors of the estates to make collections on their own account. Nothing but great laxity of supervision in the past could have brought the accounts of the Hardoi estates into the condition described by the Commissioner, and their management still requires very close attention.

5. The total arrears of rent due at the end of the year amounted to Rs. 1,93,490, of which Rs. 1,52,506 were on account of the outstandings of previous seasons. In most districts inquiry into the balances has been made, and sanction has been given to the striking off of irrecoverable items as below:—

Sanctioned by Commissioners.

	Rs.
Lucknow Division	2,532
Sitapur do.	1,705
Rae Bareli do.	1,649
Fyzabad do.	18
Total ...	5,904

Fyzabad do.	...	...	...	4,773
Rae Bareli do.	...	...	...	38
Fyzabad do.	...	...	...	1,825
		Total	...	11,795

Mr. Evans reports that he had intended making further inquiry in the cold weather into the outstandings in the Rae Bareli estates, some of which are very heavy. His successor should now see that this is done. The necessary statements may be submitted at the end of the cold weather instead of with the annual report, if this is found more convenient. The arrears in some of the Bara Banki estates are heavy; but the Deputy Commissioner has decided to class them as recoverable. In Hardoi many of the items are irrecoverable, and sanction should be formally obtained to write them off the accounts.

6. In several of the district reports details have again been given of the extent to which the balances are due from the various classes of tenants.

In Lucknow the balances are almost entirely owed by tenants-at-will, and in Hardoi by tenants-at-will and lessees. In Kheri sub-settlement holders have failed to pay up 8 per cent. of their rents, while the tenants are in arrears to the extent of only 4 per cent. on their rental. The total amount due, however, from the former class is small, and there may be special reasons to account for the comparatively heavy balance. In the Khapradih estate in Fyzabad, where the rent demand is over Rs. 20,000 both for sub-settlement holders and for tenants the former class have proved themselves to be much the better payers, the percentage of their arrears to the demand being ·12, while in the case of tenants the percentage is 2·29. In the Sultanpur portion of the same estate the sub-settlement holders have paid up in full their rental of Rs. 16,600, while the arrears of tenants-at-will amount to 1·89 per cent. on a demand of Rs. 3,800.

7. The collections on account of miscellaneous items of income were, as shown in the following abstract of

appendix II, better than in the previous year in the case of house rents, takávi, and law expenses, and less satisfactory under the heads of interest and miscellaneous:—

	Demands.	Collections.	*Percentage of collections to demand.*		
			1884-85.	1883-84.	1882-83.
	Rs.	Rs.			
Rent of houses	3,031	2,771	91	88	90
Takávi	25,151	18,312	72	68	59
Law expenses	25,986	18,759	72	40	48
Interest	21,292	12,746	59	76	87
Miscellaneous	1,90,819	1,65,115	86	88	92
Total ...	2,66,279	2,17,703	82	82	88

8. The Itaunja estate in Lucknow was again particularly unfortunate in the matter of realising arrears of takávi, less than Rs. 200 out of a demand of Rs. 1,100 having been collected. The Commissioner points out that no adequate explanation is offered; but as the estate has been released, it is unnecessary to pursue the matter further. Mr. Quinn suggests that landlords should be empowered to recover takávi by the same process as arrears of rent; and that "failure to satisfy a decree for takávi arrears should, as with rent arrears, entail forfeiture of the holding." That some such arrangement would encourage a freer grant of takávi by landlords may be readily admitted; but the restrictions it would be necessary to impose on the amount to be lent and the interest to be charged would make it difficult to give effect to the suggestion in practice; and there would be considerable risk that the summary power of recovery would be used to the detriment of the tenant.

The arrears of takávi were considerable in Rae Bareli, and it is reported that advances are now made after more careful inquiry as to the security. In Bahraich the officer in charge wisely refrained from pressing for recovery of takávi tenants whose crops had been damaged by the heavy rains.

9. The recoveries on account of law charges are shown as amounting to 72 per cent. of the demands, as compared with 40 per cent. last year. This exceptionally favourable result, however, was due in part to the returns for Rae Bareli, where Mr. Evans has shown as realised certain costs due to the Pandriganeshpur estate, for the liquidation of which he has made special arrangements with the debtor. If this estate be left out of consideration, the demands and balances in each district were as follows :—

	Demand.	*Balance.*
	Rs.	Rs.
Lucknow	541	385
Bara Banki	1,591	564
Sitapur	100	93
Hardoi	156	...
Kheri	442	131
Fyzabad	357	15
Bahraich	518	...
Gonda	513	14
Rae Bareli	1,602	908
Sultanpur	4,331	1,178
Partabgarh	3,832	2,836
Total ...	13,983	6,124

The collections amount to about 44 per cent. of the demand—a result that cannot be considered satisfactory, though it is better than last year's. There is evidence, however, in the reports that proposals for litigation are now closely scrutinised, and the institution of suits discouraged in cases where no practical result can be hoped for. Mr. Evans goes so far as to say, "as a matter of fact, I believe it would be better to make a general rule not to file any cases for arrears of rent at all." Even the costs decreed by the courts are often not recovered, and besides these items there is always a large annual expenditure in the shape of mukhtars' pay, vakils' fees, dieting and expenses of witnesses, and other travelling expenses, which is a dead loss to the estate, as such items are not allowed by the courts." The experience of Mr. White and Major Grigg appears to be to much the same effect. There are no doubt occasions on which a defaulting tenant must be put into court; but the effect of such action is much greater when care is taken to proceed only against defaulters in whose case a decree is not likely to be a mere nullity. Without careful direction and supervision the estates' mukhtars are very

apt to bring suits as mere matter of routine. The large uncollected balance in Partabgarh is principally due to the costs in 69 suits decided towards the end of the year. Measures for reducing these are being taken. No explanation is given of the collection of only 7 per cent. of the demand in Sitapur.

10. The large balances on account of interest occur chiefly in the districts of Lucknow and Partabgarh. In the former, as the Itaunja estate was about to be released, it was thought better to leave the proprietor to proceed himself against the defaulters; in the latter, the outstandings were in the Dahayawan estate, which was brought under management only in May, when some time had to be spent in going over the accounts of the estate, and ascertaining its exact financial position.

11. The following table shows the expenditure under each head, and the proportion borne by it in the past and in previous years to the total income :—

Heads of expenditure.	Amount.	*Percentage of total income of year.*			
		1884-85.	1883-84.	1882-83.	1881-82.
	Rs.

Balance ...	57,692	3·2	3·4	2·3	5·7
Income of the year ...	18,29,419	100·	100·	100·	100·

12. The land revenue demand, which amounted to Rs. 7,33,960, or 45¼ per cent. of the total collections of rent, was paid in full. In Fyzabad and Sultanpur the

sums due on account of patwáris have been shown in appendix V as remissions. To ensure uniformity it would be convenient that the pay of patwáris should, as in the budgets, be shown on both sides of the accounts. The revenue demand should be shown in full and the payments to patwáris should be included in the collections on account of revenue.

13. The cost of management shows a considerable increase as compared with last year, the cost of the sudder establishment alone rising from Rs. 25,701 to Rs. 30,504. The increase occurred chiefly in Sultanpur (Rs. 9,174 as compared with Rs. 5,875) and Fyzabad (Rs. 2,096 as compared with Rs. 1,138). In Sultanpur heavy payments had to be made on account of an arrangement come to some years ago, but not at first fully understood for recouping the Government for the expense which the management of the large estates in this district involves. A portion of the Khapradih estate, which is managed from Fyzabad, lies in the Sultanpur district, and had also to contribute to the pay of the Extra Assistant Commissioner there. The only other district showing a marked increase is Gonda (Rs. 1,340 as compared with Rs. 988); and here the cause is not explained.

14. The expenditure on education was much the same as in the previous year. A few of the wards will in future be educated at the newly-opened Wards' Institute at Agra.

15. The expenditure on improvements fell from Rs. 81,051 to Rs. 72,233, of which Rs. 16,347 were on account of recoverable, and Rs. 55,886 on account of irrecoverable, improvements. The decrease in recoverable advances was most marked in the Partabgarh district, where the expenditure under this head fell from Rs. 5,515 to Rs. 397. The decrease appears to be due to the discontinuance of Major Grigg's very energetic measures for inducing the tenants to construct improvements for themselves. The present season is said to have been a less favourable one for well-sinking, while the most enterprising of the tenants had already undertaken such works as they required; and under these circumstances the estates' officer probably exercised a

wise discretion in restricting operations. Under irrecoverable improvements there was a large decrease in Lucknow, which is explained by the near approach of the date of release of the Itaunja estate. In all the districts of the Rae Bareli Division there was an increase in the irrecoverable expenditure on improvements.

16. The necessity of utilising the time during which estates are under management to secure these properties against drought and improve the position of the tenants is fully recognized in all districts; though in the Sitapur Division less has been done in this direction than in the rest of Oudh, and the reports do not show to the same extent as elsewhere that close personal acquaintance with the circumstances of the estates, which is the best guarantee that judicious efforts will be made for their development. But for this there were special reasons, as none of the officers had been long in charge; and next year's record may be expected to show better results. It may be noticed here that the Deputy Commissioner of Sitapur has failed to comply with the request that district officers would give a short separate notice of each estate under management.

17. The construction and renewing of wells, tanks, and embankments were, as usual, the works to which attention was chiefly directed; the estates themselves undertaking in some cases the whole expense and responsibility of the work, and in others encouraging the tenants to do the actual work by assistance, pecuniary or other. It must depend very much on the circumstances of each estate which method of work is adopted; but it is of interest to compare the views expressed by officers of experience as to the comparative efficacy and economy of the two systems. Mr. Evans of Rae Bareli writes that he has "come to the conclusion that by far the most effective method of making improvements is by giving advances to tenants or by allowing them to construct the wells at their own expense for a lease for a term of years, or land for a bágh." Mr. Harington, commenting on this, says: "I entirely agree with Mr. Evans as to the wisdom of securing improvements when practica-

ble through the exertions of the tenants themselves. But to give these exertions just hope of success, I am convinced that each estate or group of estates should have its boring instruments and contribute jointly to the salary of an apprentice, or other skilled person, with a view of ascertaining in each locality the exact kind of well best suited to its wants." In Bara Banki Mr. White, looking to the expensiveness of wells constructed by the estates, would be glad to see them all undertaken by tenants were it not that the difficulty of securing good work seems to him to more than counterbalance the economical advantage. The Commissioner (Mr. Quinn) says: "The construction of wells can best be undertaken by the estate except in special localities, where the cost is small and there are no engineering difficulties. It is no doubt true that, owing to the carelessness and ignorance of the cultivator, money is often wasted on wells which fall in or run dry in a year or two."

It is obvious that no general rule can be laid down in such matters. The nature of the subsoil and the engineering difficulties in the way of well-sinking, the financial position of the estate, the character of the tenantry, and the quality of the supervision which the officer in charge is able to secure, are all factors to be taken into consideration when deciding whether to encourage tenants freely to sink wells or undertake other improvements. But in the greater part of Oudh, with water not more than 20 to 25 feet from the surface, the engineering difficulties are really very small, and it is the experience of those who have had most to do with the development of the estates, not only that improvements can be much more rapidly effected through the tenantry than by an official establishment, but that work of very practical excellence can be ensured. Whatever may be the terms on which assistance is given to the tenant who wishes to build a well, his future need not be in the least uncertain. Whether the tenant is tempted by a very long lease, or the permission to plant a grove that will carry on his name for several generations, or a loan of which a substantial share will be remitted if he succeeds, he does not commence work unless the temptation is sufficient; but having commenced he knows that the

grant of the assistance, for which he has bargained, is contingent on the utility of his well, and he has the highest possible incentive to good workmanship in his undertaking. It must not be forgotten that an estates' officer, who constructs his improvements through his tenantry, enlists a cordiality and good feeling, which is lost to him when they are excluded, but which he will find of the most material advantage in many departments of his management. Lastly, since there is no branch of estates' work in which there have been such numerous and conspicuous failures as in the official construction of wells, the systematic adoption of this method of improvement demands in the manager an implicit confidence in the aptitudes and leisure of himself and his subordinates, or the assurance that there are risks and difficulties insuperable by the ordinary tenant.

18. Experimental well-sinking may be made of very great use to improving tenants, and must of necessity be undertaken by the estates. The final success of tube wells in Sultanpur is still uncertain, and the difficulties to be encountered in that district fully warrant the Deputy Commissioner in obtaining at the expense of the estates a set of boring apparatus in charge of a qualified mechanic. Similar arrangements have been or are being made in Bara Banki, Kheri, and Fyzabad, and would probably result in a saving in the end in all cases where the finances of the estates allow of the expenditure. More particularly in some parts of the Rae Bareli estates would professional advice as to the best method of well-sinking seem to be required.

19. The introduction of improved agricultural implements and new staples is rendered difficult by the cultivator's unwillingness to depart from traditional methods, and his distrust—not altogether unfounded—of the pecuniary benefit to himself of some new experiment. All that can be done is to give such publicity as is possible to improvements the success of which has already been established; and in this way a good deal has been accomplished. An improved plough has yet to be invented that will turn up the soil and at the same time be cheap, light of draught, easily repaired, and of simple construction. None of the ploughs hitherto

devised have met with any distinct success. The rapidity with which the Behea sugar mills, however, have come into general use shows that the cultivator is by no means slow to adopt a new invention which is immediately profitable to himself. The only unfavourable report on these mills comes from the Madhpur estate in Partabgarh, where the tenants discarded the new mill in favour of the old *kolhu;* elsewhere the demand for the Behea mill continues to increase, and its advantages are thoroughly appreciated. Mr. McConaghey—apparently alluding to some case that has come under his notice—says of these mills that "the firm should see that good wood is used; unsound and kutcha wood may bring the mills into disrepute." An American evaporater, introduced by the Agricultural Department, has been tried in places, but has not yet been generally accepted, though the Commissioner of Rae Bareli thinks that it would succeed in a cane-growing district.

20. Next to the provision of means of irrigation, there is probably no measure of improvement that would be more useful or more appreciated by the tenant than some arrangement by which a ready means of obtaining good seed would be afforded the cultivator. In the matter of introducing new staples the estates have already done all that the indifference of the tenants permits. But what is now meant is not the introduction of new staples, but the improvement of the supply of seeds of the ordinary grains. No serious attempt seems yet to have been made to show whether arrangements for the introduction of some such improvement on a large scale are or are not practicable. The energetic and experienced agricultural reformer of Sháhjahánpur, Pandit Ajudhia Parshad, explained a scheme to the tenants at Bara Banki; but it remains to be seen whether the Deputy Commissioner will find it possible to take action in his estates on the lines suggested. The subject is one of much importance, and in commending it to the attention of all officers, the following remarks from Mr. Evans' report may be quoted:—

"There is, however, a demand for good wheat seed; and if some arrangement could be made by which

wheat seed could be distributed in large quantities through the sarbarakars, the tenants would, I believe, gladly take it. A tenant who cannot afford to keep back seed from his previous crop has to get seed from a bania, who gives him unsifted grain, in which there is a great deal of dust, and for which he has to pay back half as much again good grain. The sarbarakars tell me that those who are able to keep grain for seed select it very carefully, and the result is that their crops are much better than those raised from seed obtained from a bania."

21. Another field in which there is much scope for similar advance is the improvement of the breed of cattle. Much has already been done in this way by the purchase of bulls, the giving of prizes at shows, &c.; and the judicious encouragement of cattle marts in Rae Bareli promises very good results.

22. Advances of takávi were, as already noticed, considerably less than in the previous year, having sunk from Rs. 23,693 to Rs. 16,349. The decrease is almost entirely accounted for by the discontinuance in the Partabgarh district of advances to tenants for well sinking. In Fyzabad there was a decrease in the amount advanced from Rs. 1,280 to Rs. 265, which is unexplained. The amount that fell due during the year, including principal and interest, came to Rs. 25,151 and the amount realised to Rs. 18,311. The balances were largest in Lucknow, Bahraich, Rae Bareli, and Sultanpur. In Bahraich the officer in charge did not press for payment in cases where the defaulter's crops had suffered from the heavy rains; in Rae Bareli, where the season was a good one, the balance seems to be due to absolute poverty on the part of the debtors. The total amount of takávi and interest now outstanding in all the estates under management amounts only to Rs. 45,715, an insignificant sum in comparison with the total income.

23. Of the 58 estates under management 15 were free of debt at the commencement of the year. The debts on the others amounted to 18 lakhs, and, in addition, interest to the extent of Rs. 80,000 accrued during the

year. The total payments from cash in the hands of the manager is shown in appendix VII as Rs. 3,49,208. But from this should be deducted Rs. 16,000 borrowed in one of the Partabgarh estates to pay off a mortgage. The total payments, then, from cash were Rs. 3,33,208 as compared with Rs. 3,93,555 last year. The decrease was in several cases—as in the Rehwa, Paska, and Korihar Sataon estates—due to the payment in full of all debts during the course of the year or that preceding it. In other cases, however, the explanation is less satisfactory. In Hardoi the payments decreased from Rs. 29,244 to Rs. 12,858, and the decline was remarkable in almost all the estates, thus :—

	Rs.		Rs.
Sarwan Baragaon from	12,211	to	5,974
Asifpur „	7,322	„	2,697
Durgaganj „	2,558	„	1,087
Baghiari „	4,800	„	3,100

No special reason for this striking decrease is assigned; and special inquiry will be made into the matter.

In Gaura Kasauti in Rae Bareli the payments, owing to the purchase of a house and some lands, fell from Rs. 25,500 to Rs. 16,800. In Kaithola and Rajapur in Partabgarh the payments were by no means so good as in the previous year.

24. At the beginning of the year there were 18 encumbered estates under management the debts of which had been reduced from Rs. 13,62,420 to Rs. 5,75,790. A further reduction of a little over a lakh and a quarter has been effected in the principal of the debts, which amounted at the close of the year to Rs. 4,52,620. The debts of the Khapradih and Khajuri estates were entirely cleared off. The former of these has been retained under the management of the Court of Wards; the latter has been released. The Khapradih estate was taken under management in 1870, and in 1876 the debts were paid off by a Government loan of Rs. 36,000. This has been repaid in little more than half the time anticipated. Not only has the debt been paid off, but those portions of the estate that were leased or mortgaged have been brought under direct management, wells and tanks have been made, and the property is said to be now fairly protected from

drought. The development of the estate now unencumbered with debts should be even more rapid in the future. For what has been done in the past, the credit is principally due to the energy and forethought of Major Barrow. The small estate of Khajuri was brought under management in 1872 with debts of over Rs. 20,000. These were paid off with the aid of a Government loan of Rs. 17,500, which has now been repaid. The resources of the estate did not admit of much expenditure on improvements; but something has been done in the way of constructing wells and tanks.

25. The debts of the wards' estates amounted at the commencement of the year to 12 lakhs of rupees, and at the end to 10½. The Korihar Sataon and Paska estates were entirely freed during the year. The proprietor of the former is still a minor, and the management will continue. The Paska estate was taken under management in 1877, the proprietor, a lady, being declared disqualified to manage it. Under ordinary circumstances there would have been no question of the Thákurain's ability to manage; but the property was embarrassed with debts of over a lakh. To clear these off the estate was taken under management; and now that they have all been liquidated, partly by the sale of a portion of the estate and partly from savings from the annual income, the estate has been restored to its owner. It is to be regretted that during the period of management little has been done for the improvement of the property.

26. The Lodhwari estate in Rae Bareli was released in August, 1885. The proprietor, Mian Uttam Singh, uncle of Shahzada Shahdeo Singh of the Panjáb royal family, was vazir of the native state of Mandi, and during his absence his affairs became embarrassed, and debts to the extent of Rs. 47,000 accumulated. These were paid off without difficulty; and when they had been liquidated, orders for the release of the estate were issued, as the Government could not undertake the continued management of the property of a gentleman who was in every way perfectly competent to manage it himself. The estate is in a very prosperous condition;

it is well supplied with means of irrigation, and a number of additional wells have been constructed during the period of Government management.

27. The Itaunja estate in Lucknow was not released till shortly after the close of the year; but as its returns will not again find a place in the report, the result of the management may be noticed now. The estate was taken under management on the 14th January, 1881, in consequence of the death of the proprietor, Rája Jagmohan Singh, who had obtained possession only three and-a-half months before on his attaining his majority. During the first year of management the estate was not administered satisfactorily. Improvements were neglected, and over 600 notices of ejectment were allowed to be issued. In subsequent years there was a change; and the estate has now been made over in a most flourishing condition, with a large invested balance, and a considerable amount of cash in hand. Forty-nine masonry wells have been constructed or repaired by the estate, and 15 by tenants, to whom assistance was given. The estate is believed to be now well secured from drought. Over 700 bíghas of waste have been reclaimed and brought under cultivation, and the rental has been increased by about Rs. 2,000.

28. There was again an increase from 606 to 638 in the number of notices of ejectment issued. In Bara Banki and Hardoi this process was much less resorted to than before; but in Sitapur, Kheri, Fyzabad, Bahraich, Sultanpur, and Partabgarh there was a marked increase. The object of the notices was in many cases to get rid of persistent and chronic defaulters; but many notices seem also to have been issued for purposes of enhancement pure and simple. The Assistant Commissioner, Partabgarh, says of the comparatively large number issued by him that they "mark a period of revival of energy in enhancement after several years in which agricultural depression made enhancement difficult." The notices in this district were not always issued with the requisite care. In one estate in which 35 were issued, 16 were contested; and in six cases the tenants won in the court of first instance. The attention of the Commissioner has been called to the matter separately.

In Sultanpur also notices seem to have been issued somewhat too freely. The number rose from 27 to 71, of which more than half were contested. Notices were usually resorted to in this district on the tenants' refusal to accept leases. The sudden increase in Sitapur from 16 to 80 is entirely unexplained. In Rae Bareli the bulk of the notices—70 out of 126—were issued in two estates which are managed by the talúqdárs themselves. There can be no doubt that in these estates eviction was resorted to too readily, and Commissioners should in future maintain a close supervision over this branch of the management. In a few cases in this district notices were issued by mistake and subsequently cancelled. The failure of the Court of Wards in Bara Banki to contest eight objections made to the issue of notices in the Pokra Unsari estate indicates a decided want of care in the original issue of the notices.

29. The statements showing the litigation of the estates have been transferred to the Legal Remembrancer to the Government, and are therefore not noticed here, as usual. The increased caution displayed in sanctioning the institution of suits has already been alluded to.

30. The Lieutenant-Governor and Chief Commissioner is glad to be able again to express his satisfaction with the manner in which the administration of the estates has generally been conducted. It is natural that the districts in which the largest estates are under management should be those in which the system should have received most attention, and been most efficiently and thoroughly carried out. There can certainly be no doubt that in the southern districts and in Bahraich a much more active personal interest has been taken in the advancement of the properties than in the districts of the Sitapur Division. In Partabgarh there has been a tendency to press enhancements excessively; and the resulting rise in the number of ejectment notices speaks unfavourably for the administration, which requires the careful control of the Deputy Commissioner in this respect. In Sultanpur also Major Grigg's otherwise excellent management has necessi-

tated a similar increase; but the reasons for and the care taken in issuing the notices here were more satisfactory than in Partábgarh. In Bara Banki, Rae Bareli, Fyzabad, and Bahraich a good system of management has now been established which was maintained throughout the year; and the introduction of a similar system in the estates of the Sitapur Division may be expected from the supervision exercised by the Commissioner.

31. The charitable trusts, of which the statistics are given in appendices IX to XII, are the same as in the preceding year. Seven are in the Lucknow district, three in Bahraich, and one in Hardoi. The cash balance at the credit of these trusts at the beginning of the year amounted to Rs. 18,203, the receipts were Rs. 73,353, the expenditure Rs. 72,677, and the balance in hand at the end of the year Rs. 18,879.

32. In last year's review an account of the origin and resources of the principal trusts* was given. An important step in connection with the management of the large trusts in Lucknow was taken in February, 1885, by the revival of the General Charitable Endowment Committee which had been appointed in 1865 for the management of the charities, but had gradually ceased to exercise its functions. This committee now meets once a quarter, and exercises a general control over all the charities, each of which is administered by a sub-committee.

(1) King's Hospital.
(2) King's Poor-house.
(3) Baillie Fund.
(4) New Charity Fund.
(5) Balrámpur Hospital.

33. In the King's poor-house both in-door and out-door relief was distributed, the total number of persons aided being 82,924. In the King's hospital 22,089 in-door and 96,359 out-door patients were treated. This hospital has two branches, in one of which the English, and in the other the oriental, system of treatment is practised, and it would be of interest to have information in the next report of the comparative popularity of the two branches. In the Balrámpur hospital nearly 20,000 patients were relieved.

34. The regular subscriptions to the New Charity Fund continue to decrease, and the Secretary goes so far as to describe its condition as moribund. It has lost

the subscriptions formerly received from the British Indian Association and Husainabad endowment, the managers and trustees of those institutions having decided to dispense the sums devoted by them to charity under their own management. It is the intention of the general committee in future to set aside the King's poor-house as far as possible for in-door relief, and utilise the new charity fund for out-door relief.

35. The Saiyid Salar trust in Bahraich is directed entirely by a native committee, which meets as a rule monthly. Owing to the stoppage by cholera of the annual fair, the income, the chief items of which are house-rents and cash offerings at the tomb of the Saiyid, fell off by about Rs. 6,000. The large balance at the credit of the trust, however, enabled the committee to tide over its difficulties and to undertake a number of improvements. A branch dispensary has been opened at the shrine, and the committee very liberally detailed their native doctor for special duty in the town of Bahraich during the cholera epidemic. The Lieutenant-Governor and Chief Commissioner has read with much satisfaction the account given of the management of this trust. The Rája of Bhinga has given fresh proof of his liberality by the provision of an admirable building for the dispensary founded and endowed by him at Bhinga.

By order, &c.,

J. WOODBURN,

Secy. to Govt., N.-W. P. and Oudh.

The 9th June, 1886.

Lucknow District.—Officer in charge, Lieutenant-Colonel Hastings, Deputy Commissioner.

No. 1, *Itaunja (Court of Wards). Normal income Rs.* 68,138; *credit balance on* 30*th September*, 1885, *Rs.* 1,43,180.

There was a decrease of about Rs. 800 in the rental of the grain-rented tracts in this estate, and the total rental stood at Rs. 68,140 as compared with Rs. 68,920 in the previous year. Including arrears, the total rent demand came to Rs. 75,750, out of which a sum of Rs. 69,100 was actually collected. The rental of the year was practically realised in full; but the collections on account of arrears were poor; the failure in this respect being partly explained by the fact that nearly the whole of the arrears (Rs. 6,500 out of Rs. 6,650) is due from tenants-at-will. Of the miscellaneous items of income a considerable amount was again left uncollected, and no adequate explanation is given of the poor collections on account of takávi advances and law expenses.

A sum of Rs. 5,000 was provided in the budget for improvements, but only Rs. 1,300 were spent, the Deputy Commissioner not caring to start projects which the anticipated early release of the estate would prevent him from finishing. Three wells, commenced last year, were completed and three others were sunk by tenants.

The estate was not involved in any important litigation, and was very successful in the few suits it brought.

Bara Banki District.—Officers in charge, Mr. White, Deputy Commissioner, and Mr. Branson, Assistant Commissioner.

No. 2, *Jasmandi (Encumbered Estate). Normal income Rs.* 15,000; *deficit on* 30*th September*, 1885, *Rs.* 1,250.

In this, as in all the estates in Bara Banki, the collections of rental were excellent. The debts of the estate

at the commencement of the year stood at Rs. 6,600, and have since been reduced to Rs. 1,250, which sum the Deputy Commissioner proposes to pay off in April. The estate belongs to a lady; but the Deputy Commissioner does not at present appear to think that there is any reason for the Court of Wards to retain the management after the debt has been paid off. The expectations of an increase in the number of tenants referred to last year have not been fulfilled, owing, it is said, to the knowledge that the Deputy Commissioner's management must soon terminate. Three excellent irrigation wells were constructed in one of the villages belonging to the estate in the Lucknow district. The estate was successful in its litigation, and the expenditure incurred was small.

No. 3, *Pokra Ansari (Encumbered Estate). Normal income Rs.* 59,100; *deficit on* 30*th September*, 1885, *Rs.* 27,000.

Rapid progress continued to be made in clearing this estate of its debt, which was reduced during the year from Rs. 39,000 to Rs. 27,000. The balance should be paid off easily in two years. The collections of current rental were excellent, and satisfactory progress was made in recovering arrears of previous seasons. The outstandings, however, still amount to the large sum of Rs. 8,201, a great part of which appears to be covered by bonds. The number of notices of ejectment issued was 20—only a quarter of the number issued in the previous year; but no less than eight of these appear to have been successfully objected to. The Deputy Commissioner remarks that the management took no measures to defend the suits contesting the notices, but gives no explanation of the reason.

The expenditure on improvements was liberal, but it is not made very clear how the money was laid out. A sum of Rs. 1,800 was advanced in takávi for the construction of wells or purchase of cattle.

The young Rája continued to attend the Bara Banki High School, where his progress has not been so satis-

factory as could be desired. It has been decided to send him to the Wards' Institution at Agra.

No. 4, *Akhyapur (Encumbered Estate). Normal income Rs.* 5,000; *deficit on* 30*th September*, 1885, *Rs.* 7,251.

The debt on this small estate is being cleared off but slowly, notwithstanding that all expenditure on improvements has been stopped and that the collections have been good. During the year a sum of Rs. 898 was paid towards the liquidation of the debt as compared with Rs. 400 in the previous year; but the Deputy Commissioner considers that it will be impossible to pay off the whole of the debt for at least 10 years. No notices of ejectment were issued; and the only litigation in which the estate was involved was one suit brought against it by the widow of the late talúqdár.

No. 5, *Kharka (Court of Wards). Normal income Rs.* 24,670; *deficit on* 30*th September*, 1885, *Rs.* 40,000.

The total collections on account of rents, current and arrear, were slightly below the amount of a full year's rental. Arrangements for the settlement of new tenants were continued; and a number of ejectment notices were issued to displace pahikásht in favour of resident tenants. Two masonry wells have been built by the estate and two by tenants; some success has been attained in the introduction of new staples and in the extension of sugarcane cultivation; and tree-planting on waste land has been continued. The estate is in an unsatisfactory position as regards its debt, which now consists of a sum of Rs. 40,000 due to a talúqdár who holds some of the villages on a mortgage which cannot be redeemed for 10 years to come. Thus the large surplus which is each year at the credit of the estate cannot be at present utilised for the reduction of debt, and has to be invested. The Deputy Commissioner will consider and report whether the mortgage cannot be bought out.

No. 6, *Togapur Yakutganj (Court of Wards). Normal income Rs.* 5,200; *deficit on* 30*th September*, 1885, *Rs.* 47,730.

This estate continued in lease, and the debt was reduced from Rs. 50,030 to Rs. 47,730. The circumstances under which the estate was taken over were explained in last year's review.

No. 7, *Bhilwal Khanpur (Court of Wards). Normal income Rs.* 67,700; *deficit on* 30*th September*, 1885, *Rs.* 1,50,400.

This lightly-assessed, but heavily-involved, estate has now been three years under management, and the debt has been reduced from Rs. 1,67,000 to Rs. 1,50,000. During the year a sum of Rs. 21,100 was paid to the creditors; but the greater part of this was in payment of interest, and the actual reduction of debt was under Rs. 10,000. Two old wells were repaired by the estate, and 10 tenants received advances for well-building. Takávi was also given freely for the purchase of cattle.

Sitapur District.—Officer in charge, Mr. H. H. Butts, Deputy Commissioner.

No. 8, *Bamnawan (Court of Wards). Normal rental Rs.* 5,800; *credit balance Rs.* 16,888.

This estate, which has been under management since 1869, was released during the year, the young ward having attained his majority on the 23rd of April. The estate was made over with a large balance at its credit, the greater part of which was invested in a loan to another estate. The collections of the rental during the years of management have been good; but it would not appear that any special measures for the improvement of the estate have been taken; and the Deputy Commissioner has explained that the situation of the estate in the lowlands between the Chauka and Gogra, renders improvements of the ordinary description unnecessary.

The rents are collected mostly in kind, and the Deputy Commissioner has professed his inability on this

ground to say whether the rental has advanced or not. The minor proprietor was educated at home, and is reported to be intelligent and active.

No. 9, *Baghera (Court of Wards). Normal income Rs.* 14,230; *deficit on* 30*th September*, 1885, *Rs.* 9,849.

The rental in this estate was increased from Rs. 10,755 to Rs. 14,237 by the redemption of two villages held in usufructuary mortgage. The season was a prosperous one; the rents of the year were realised in full and the balance of arrears for previous years was reduced to a really nominal sum. Notwithstanding the expenditure that the marriage of the heir involved, the debts were reduced by the large sum of Rs. 5,600. The total amount now due is under Rs. 10,000, which should easily be cleared off in two years. The only work of improvement undertaken by the management was the repair of a well; another well was built by a cultivator, to whom land for a grove was granted.

No. 10, *Deokalia, nine-anna share (Court of Wards). Normal income Rs.* 10,900; *deficit on* 30*th September*, 1885, *Rs.* 36,963.

The uncollected rent balance amounted to Rs. 286 only out of a total demand of Rs. 10,878. The collections on account of the arrears of former seasons were also good. Substantial progress was made in the reduction of the debt towards which a sum of Rs. 7,000 was paid. The development of the property was again neglected, the repair of one well and the purchase of a Behea mill are the only improvements to which the Deputy Commissioner can point. Twenty-three notices of ejectment were issued. The necessity for issuing these is not stated; apparently only a few tenants were actually evicted.

No. 11, *Deokalia, seven-anna share (Court of Wards). Normal income Rs.* 6,450; *deficit on* 30*th September*, 1885, *Rs.* 37,858.

The collections both of current rents and arrears were good; and the debts were reduced by a sum of Rs. 4,500. A well was constructed at the cost partly if

not principally of the ward, who paid for it out of his own allowance.

Hardoi District.—Officers in charge, Colonels Newbery and Horsford and Mr. Bartlett.

No. 12, *Sarowan Baragaon (Encumbered Estate). Normal income Rs.* 44,500; *deficit on* 30*th September*, 1885, *Rs.* 84,200.

This estate has villages in the Hardoi, Kheri, and Unao districts. In Hardoi and Unao the collections were admirable, and the result was creditable to the manager, who is a brother of the talúqdár. In Kheri there were heavy balances, the greater portion of which has to be remitted owing to inundation. The villages in that district are leased, and it is reported that a very high rent was given by a relative of the talúqdár, who was colluding with him to keep out the old lessee. The tenants were assisted to a small extent with takávi, but nothing further was done in the way of improvements. Owing to the losses in Kheri, very little—only the sum of Rs. 5,974—was paid towards the reduction of the heavy debt of the estate.

No. 13, *Asifpur (Encumbered Estate). Normal income Rs.* 22,000; *deficit on* 30*th September*, 1885, *Rs.* 7,400.

The accounts of this estate, which consists of 11 villages in pargana Bilgram, have been very carefully examined by the Commissioner, who has clearly set out the causes of the unsatisfactory results reported. There was a decrease in rental due to diluvion; but after making allowance for this the large sum of Rs. 2,800 remained in balance at the year's end on account of current rents. The irrecoverable balance includes sums that, owing to inundation or diluvion, were not really due, and should not have been shown in the demand. Arrangements for removing these items from the roll must be made.

The recoverable balances will then amount to Rs. 1,300, a large sum for a year like the past one.

The balances of past years are heavy, and the Commissioner's detailed examination of them brings out very clearly the laxity of administration at the time they accumulated. In addition to sums due by defaulting tenants, they include amounts realised by the talúqdár through collusion with patwáris, and moneys embezzled by patwáris. A deduction of one-half his pay is made from one patwári on account of sums appropriated by his father. As the Commissioner points out, this is not a satisfactory arrangement; the full pay should be allowed in future, and the loss of the remainder of the amount embezzled accepted by the estate. It is hoped that the recoverable balances will all be realised in the present year.

Advances of takávi were made to tenants, and one well was constructed by the estate.

No. 14, *Durgaganj (Encumbered Estate). Normal income Rs.* 7,100 ; *deficit on* 30*th September*, 1885, *Rs.* 11,400.

The total collections amounted to 98 per cent. of a year's rental, and are pronounced by the Commissioner to be fairly creditable; but the balances both of current and arrear rents are still heavy. The accounts should now be cleared up as suggested by the Commissioner, and the irrecoverable items removed. After payment of all expenses there was little left for liquidation of debt, and much more careful and energetic management will be required in future if the estate is to be cleared in three years, as is considered possible.

In this estate also the improvements consisted of the construction of one well.

No. 15, *Baghiari (Encumbered Estate). Normal income Rs.* 10,700; *deficit on* 30*th September*, 1885, *Rs.* 13,200.

The collections were not good. Some progress was made in reducing the arrears of past seasons; but the collections on account of current rents did not reach 90 per cent. of the demand. This result was partly due to the managers crediting current collections against arrears—a practice which, as the Commissioner points out, should

not be encouraged. The balances have been carefully examined by Mr. McConaghey, who expresses an opinion that all the recoverable items should be cleared off in the present prosperous season.

There was some slight expenditure on takávi and improvements and the debts were reduced by Rs. 3,100.

The proprietor, a lad of 16, is in Hyderabad with his father, who is in the Nizam's service, and who, it is said, intends to send his son to England.

No. 16, *Mansurgarh (Court of Wards). Normal income Rs.* 11,900; *credit balance on* 30*th September*, 1885, *Rs.* 12,500.

The Commissioner's account of and orders on this estate leave nothing to be added. The estate consists of four villages in Lucknow and six in Hardoi. The rental was somewhat larger than in the preceding year, and the collections have been all that could be desired. The total balance at the close of the year amounted to Rs. 460 only. The collections of miscellaneous items were also good. More attention might have been paid to improvements, especially as the estate has a large credit balance. The programme in this respect was the same as in most estates in the district, *viz.*, the construction of one well and the advancement of takávi. The ward, who is 16 years of age, attends the Hardoi school, where he is doing well.

No. 17, *Marwan (Court of Wards). Normal income Rs.* 14,600; *credit balance on* 30*th September*, 1885, *Rs.* 18,800.

The rental was slightly larger than in the previous year owing partly to reclamation of waste and partly to enhancement. The collections were very good, and only a trifling sum remained in arrears. Improvements were undertaken more vigorously than in the other estates, and a large embankment was constructed in addition to a well.

The ward of this estate also attends the Hardoi High School, where he is progressing favourably.

Kheri District.—Officer in charge, Colonel Murray, Deputy Commissioner.

No. 18, *Bahadurnagar (Encumbered Estate). Normal income, Rs.* 54,400; *deficit on* 30*th September*, 1885, Rs. 6,500.

In some respects the year was an exceptionally favourable one, and there were 2,000 more bíghas of land under cultivation than in the previous year. On the other hand the kharíf crop was much damaged by the heavy rains in October, and the sugarcane crop is reported to have been almost an entire failure. The collections of current rents were admirable, and some progress has been made in reducing the heavy arrears and in ascertaining what portions of them are really recoverable. Nearly half of the total amount still due is reported to be absolutely irrecoverable, and measures are being taken for securing the payment of the rest. The final marriage ceremony of the ward necessitated an expenditure of Rs. 5,000; but the large sum of Rs. 13,300 was at the same time paid towards the reduction of the debt, which should be easily cleared off this year. Little was done in the way of introducing improvements. A few Kaiser ploughs were distributed, and Behea sugar mills were let out on hire by the estate. The ploughs do not command much success; but the mills are, the Commissioner reports, being eagerly bought up all over the Division. Five wells were dug, and over 1,000 bíghas of waste land were brought under cultivation. The estate is evidently one in which there is much room for development by enterprising management. The young ward is still living with his father-in-law at Nánpára, where his education is being completed.

No. 19, *Kasmori (Court of Wards). Normal income Rs.* 5,800; *credit balance on* 30*th September*, 1885, *Rs.* 3,120.

There was an increase in the cultivated area and in the rental of this small estate. The collections were admirable, and the arrears at the end of the year were trifling. The release of the estate has recently been sanctioned.

Fyzabad District.—Officer in charge, Mr. A. Robinson, Deputy Commissioner.

No. 20, *Khapradih (Encumbered Estate.) Normal income Rs.* 72,600; *balance at credit of the estate on* 30*th September*, 1885, *Rs.* 2,460.

The debts for which this estate was originally brought under management in 1870 as an encumbered estate were paid off during the year; but as the proprietor is a minor, the estate has been taken under the Court of Wards.

The rental shows an increase of Rs. 869 over that of the previous year, owing to the introduction of the system of dispensing with middlemen and to the increase of rents in places where the means of irrigation have been improved. The collections of current rents were good in both Sultanpur and Fyzabad, and the outstandings of other years were considerably reduced.

The estate is one that has suffered much in the past from drought; and now that the debts have been cleared off, a vigorous effort should be made to secure it against such calamities as led to the desertion of many villages during the last famine. Something, but not much, was done during the past year. Two tanks were excavated and five wells are in course of construction, while the tenants are also coming forward to help. Well-sinking in this estate is a very difficult task, as the water-level is always below a deep stratum of shifting sand. A set of boring implements has now been purchased, and a mechanic obtained from the Agricultural Department to work them. Thirty-eight notices of ejectment were issued in Fyzabad, of which 11 were contested, but none with success. In Sultanpur none were issued. The usual annual darbár of the tenantry was held, and rewards distributed to regular rent-payers, tenants who had constructed wells, and officials. The arrangements for encouraging vaccination were continued, and systematic measures are about to be taken for improving the sanitation of the larger villages. Anant Bahadur Singh, the minor talúqdár, is an intelligent and promising lad.

No. 21, *Mamrezpur (Court of Wards). Normal income Rs.* 4,200; *deficit on* 30*th September*, 1885, *Rs.* 2,590.

The rents of this small estate were, with the exception of a small sum owed by a tenant who abandoned his village, collected in full. There was a considerable increase in the rental, owing to extension of cultivation. The estate is a prosperous one, and the rapid liquidation of the debts is anticipated. A partition has been effected, and Bhagwan Din's share divided from his minor nephews'. The two portions of the estate will in future be managed and reported on separately.

No. 22, *Samanpur (Court of Wards). Normal income Rs.* 42,000; *credit balance on* 30*th September*, 1885, *Rs.* 4,800.

This estate was the property of Malik Hidayat Husain, a talúqdár who died on the 30th September, 1884, leaving a widow and two daughters; one of them a widow, the other unmarried. A portion of the estate had been under direct management for failure in payment of the revenue since 1882; and as the widow was unable to manage, the administration of the whole estate was assumed by the Court of Wards with effect from the 12th November, 1884. The affairs of the property are in a critical position. A large part of the estate is in the hands of mortgagees. The rent collections were partly made by the talúqdár's officers and partly by the management, and were as satisfactory as could be expected under the circumstances. The Deputy Commissioner has also been able to devote some attention to the improvement of the property. Four wells were started by the estate and six by tenants, and a few minor improvements were carried out. Seventy-seven notices of ejectment were issued, of which seven were unsuccessfully and one successfully contested. The younger daughter has been since married to the nephew of their wealthy and intelligent neighbour, the talúqdár of Pirpur, and the estate has been released on the understanding that Mir Ghazafar Husain will give the estate of his nephew the benefit of his general direction and assistance.

No. 23, *Mungri (Court of Wards). Normal income Rs.* 4,180; *deficit on* 30*th September*, 1885, *Rs.* 9,935.

This estate consists of 10 villages belonging to the two daughters of the late talúqdár of Samanpur. The Court of Wards has administered the property since January, 1885. The collections were good, for there is nothing particularly calling for notice in the account of the year's management. The process of clearing off the debt has not yet commenced.

No. 24, *Musipur Chandipur (Court of Wards). Normal income Rs.* 10,300; *balance at credit on* 30*th September*, 1885, Rs. 160.

The estate belongs to Thákurain Gaura Kunwar, and was managed by her son, Bábu Sitla Bakhsh Singh. Some time after his death she applied to have the estate taken under the Court of Wards, and her wishes were complied with in July, 1885. The management is to continue until the Thákurain's grandson, now a boy of 14, attains his majority. The estate was only two months under the Court of Wards, and the details of the management need not therefore be noticed. The debts are heavy, and a scheme for their settlement should be worked out without delay.

Bahraich District.—Officers in charge, Colonel Currie, Deputy Commissioner, and Mr. H. C. Irwin, Assistant Commissioner.

No. 25, *Rehea estate. Normal income Rs.* 76,500; *balance at credit on* 30*th September*, 1885, *Rs.* 35,700.

The decline in rental noticed last year has proved to be but temporary. The bringing of waste land under cultivation and a progressive increase in some rent-rates have brought the demand up to its old level. The collections were fair. The estate suffered much from heavy rain at the end of September, and it was considered advisable not to press the tenants for immediate payment. The collections of miscellaneous items of revenue were also fair on the whole, though there were considerable outstandings under one or two heads.

Thirty-one notices of ejectment were issued, of which 10 were unsuccessfully contested; six tenants were actually ejected, and the others reinstated. The reason for issuing the notices is not stated except that it was not to enhance rents.

Improvements were carried on liberally. The house for the tálúqdár in Bahraich, and the dispensary which the estate is erecting, are now nearly complete. Thirty-one new wells were dug and a few old ones repaired; and blankets were distributed to the poorer tenants.

The ward now attends the Wards' Institute at Agra.

No. 26, *Mehrabad (Court of Wards). Normal income Rs.* 3,300; *credit balance on* 30*th September*, 1885, *Rs.* 1,910.

There was an increase in the rental of this small estate owing to the bringing under direct management of some villages that were formerly leased. The arrears are heavy, but the bulk cannot be collected until decreed by a civil court. The outstandings of takávi are comparatively heavy owing to advances made to tenants who were not pressed for payment on account of their village being burnt.

The ward is in his seventeenth year; he attends the High School, but has not made much progress in his studies.

No. 27, *Nikahi (Court of Wards). Normal income Rs.* 1,300; *deficit on* 30*th September*, 1885, *Rs.* 2,100.

The collections were fair; and after payment of some small sums for improvements, the sum of Rs. 338 was paid towards liquidating the debts. The ward will attain his majority in September, 1886, when the estate will be released.

Gonda District.—Officers in charge, Colonel Noble, Deputy Commissioner and Mr. Bateman, C.S., Assistant Commissioner.

No. 28, *Bilaspur (Court of Wards). Normal income Rs.* 76,000 ; *credit balance on* 30*th September*, 1885, *Rs.* 61,000.

The year was a prosperous one for the estate, and the collections all round were admirable. The heavy rains in October, 1884, did not injure the crops to the same extent as in the neighbouring district of Bahraich. The total sum expended on improvements is shown as Rs. 10,800, but of this over Rs. 8,000 was spent on the rebuilding of the mosque at Utraula, the amount devoted to the development of the property being therefore comparatively small. More would have been done had not Mr. Bateman been employed during the cold weather in taking up land for the railway. Wells are easily constructed in this estate; and 21 brick-lined ones were sunk at a cost of Rs. 700. A number of old wells were at the same time repaired.

The reclamation of waste land is proceeding, but arrangements have been made to protect as a reserved forest a portion of the Pipra grant belonging to the estate. Seven notices of ejectment were issued, of which three were unsuccessfully contested. The ward still lives with his father-in-law at Nánpára, whose influence over him has been entirely for good.

No. 29, *Paska (Court of Wards). Normal income Rs.* 32,700.

The debts of this estate were cleared off during the year, and it was made over to the owner with a balance of about Rs. 4,000. Little has been done during the period of management for the improvement of the property, and the Deputy Commissioner explains that the estate is not one in which improvements of the means of irrigation are much required. The correspondence, at the time it was proposed to retain the estate under management, shows that in other directions—as in extending means of communication—expenditure on improvements would have been very beneficial.

Rae Bareli District.—Officer in charge, Mr. L. G. Evans, Assistant Commissioner.

No. 30, *Kuri Sadauli (Encumbered Estate). Normal income Rs.* 62,500; *deficit on* 30*th September*, 1885, *Rs.* 36,000.

This estate was, as in the previous year, admirably managed. Out of a current rent demand of Rs. 62,500 only Rs. 296 remained uncollected, while Rs. 3,650 arrears were realised. The collections of miscellaneous items of revenue were also good except in the matter of law expenses, but the greater part of the sum due under this head will probably be realised. Twenty-eight wells were sunk by tenants, and six were repaired at the expense of the estate, which also constructed an embankment and completed a new bazaar. Seven new hamlets also were founded. The debt was reduced from Rs. 57,000 to Rs. 36,000, and will it is expected be all paid off by the end of 1887. No notices of ejectment were issued, and Mr. Evans compares the management in this respect with that of the neighbouring estate of Udrehra, where the talúqdár found it necessary to issue 43 notices. The tenants were formerly a very unruly body, but the officers of the estates have now succeeded in gaining their confidence, and the management appears to work very smoothly. The ward, Rája Rampal Singh, is still at Aligarh, and a very favourable report of his progress is given.

No. 31, *Bahua (Encumbered Estate). Normal income Rs.* 21,200; *deficit on* 30*th September*, 1885, *Rs.* 61,000.

The collections were excellent, the current demand being practically realised in full, and a fair proportion of the arrears paid off. The miscellaneous collections were, for reasons fully explained, not so good. Large sums have in past years been spent on improvements in this estate, with the result that the greater part of it is now secure against drought; and the efforts of the management should now be strenuously devoted to the liquidation of the heavy debt. The officer in charge has, as requested in last year's review, made inquiry into the

sufficiency of the rental which, owing to a succession of bad seasons, is now considerably less than it was 13 years ago. The improvements that have been so liberally constructed on the estate justify an enhancement of rent; and the history of Mr. Evans' administration affords a sufficient guarantee that his proposals for enhancement are equitable and judicious. The enhancements proposed are still insufficient to restore rents to the level at which they stood before a series of bad seasons crippled the tenantry of the estate.

The debts were reduced from Rs. 64,500 to Rs. 61,000. The charge for interest absorbed about half of the sum available after meeting the expenses of the management; but every year will make this charge lighter, and the estate's officer estimates that the whole of the debts should be paid off in 10 years. This would certainly be a most satisfactory result; and would be the best justification of the policy initiated by Mr. Blennerhasset of securing the estate by works of improvement from drought, before commencing the process of paying off debt.

No. 32, *Amawan (Abdul Hakim Khán) (Encumbered Estate). Normal income, Rs.* 17,000; *deficit on* 30*th September*, 1885, *Rs.* 3,200.

The balance of current arrears, Rs. 1,405 out of a demand of Rs. 17,038, was large; but a considerable sum, Rs. 2,537, was credited to arrears of other years; and the total collections were larger than they have been for some years. Rupees 3,727 were paid towards reduction of the debt, which should be cleared off altogether this year. The owner is unfortunately still in debt, and little likely to benefit by the release of the estate.

No. 33, *Khajuri (Encumbered Estate). Normal income Rs.* 7,800.

The estate was released early in September, the debts having been cleared off. The collections were good, and there was no litigation.

No. 34, *Korihar Sataon (Court of Wards). Normal income Rs.* 77,700; *credit balance on* 30*th September*, 1885, *Rs.* 34,700.

The collections in this large estate were excellent, and the last instalment of debt was paid off. The arrears of rent as before accumulated chiefly in one village. It was noticed last year that the expenditure on improvements was, for the size of the estate, small; and the Assistant Commissioner now explains that this is owing to the impossibility of constructing durable masonry wells in a number of low-lying villages on the estate, where kutcha wells can be easily dug and are equally serviceable. The Commissioner's remarks—that the only conclusion he can come to is "that boring experiments are absolutely necessary with the view of ascertaining once and for all whether tube wells would be likely to succeed or not"—will no doubt receive careful consideration from the officer now in charge of the estates. The estate is in a very flourishing condition; it has a large balance now invested in Government promissory notes or in loans to other estates, and has also been able to purchase under-proprietary rights that were for sale. It maintains a dispensary and a school.

A successful and apparently a novel feature in the management of the estate is the establishment of a cattle fair, which supplies a great local want, and is likely, in the Commissioner's opinion, to be productive of much benefit as the precursor of other similar markets. The minor talúqdár is still at Aligarh, where he continues to do well, though his studies are unfortunately somewhat impeded by ill-health.

No. 35, *Bhira Gobindpur (Court of Wards). Normal income Rs.* 50,000; *deficit on* 30*th September*, 1885, *Rs.* 1,62,700.

The charge of the estate remained in the hands of Sardár Autar Singh, who has proved himself a careful and conscientious manager. The collections were good, and amounted, including sums realised on account of arrears or in advance, to considerably over a year's rental. The balance of arrears is still very heavy notwithstand-

ing the payment of Rs. 4,400 on this account during the year, and it would be advisable to ascertain how much of the amount still due may be classed as recoverable, and to write off the rest. An extraordinary item of expenditure during the year was the payment of over Rs. 6,000 costs in litigation between the Sardár and Abdul Wahid Khan, in which the former was unsuccessful. The total payments in liquidation of debt amounted to close upon Rs. 16,000; and it was shown in a statement submitted during the year that the payments up to date on this account were considerably in excess of the amount stipulated by the Government in granting a loan. Not much was effected in the way of improvements, but five wells were made by tenants and two by the estate.

No. 36, *Shankarpur (Court of Wards). Normal income Rs.* 36,800; *invested capital Rs.* 25,000.

The collections of rents were fair, though, considering the season, better results in clearing off the arrears might have been expected. The miscellaneous collections were poor, partly owing to remissness on the part of the sarbarakar. The invested capital of the estate now amounts to Rs. 25,000. Under the will of the late Rája, legacies to the amount of Rs. 27,000 have to be paid to two of his relatives, and the Court of Wards' responsibility for this payment in its capacity of executor of the will appears to be now the only reason for retaining the estate under management. The talúqdár is still at the Canning College, where his progress has been good. He is anxious to leave the college in order to learn the practical management of his estate. But little was spent during the year on improvements, the explanation given being similar to that in the case of Korihar Sataon.

No. 37, *Pandriganeshpur (Court of Wards). Normal income Rs.* 54,000; *deficit on* 30*th September*, 1885, *Rs.* 1,97,150.

The decrease in the income of the estate is due to the redemption of the Nuruddinpur villages, which were held by the estate as mortgagee. The collections were excellent, and nearly half of the total arrears—Rs. 11,500—was realised. The estate has won its case against Rája

Rampal Singh for possession of a number of villages of the Dharupur estate to clear off the debts due by the Rája. Forty-five villages, with a rental of Rs. 13,093, are now so held. During a portion of the year the estate also held as mortgagee six villages belonging to Abdul Wahid Khan. These were restored during the year, the whole of the mortgage money having been paid up.

Over Rs. 2,000 were spent on improvements. Twelve wells were constructed: two at the expense of the estate, and the rest by tenants. In addition to other minor improvements, a bazaar was repaired and extended.

A considerable sum was set aside for the repairs of the Shahzada's bungalow. At his own request it was made over to him to be expended, but has not been devoted to the purpose it was assigned for.

The estate was involved in some heavy litigation. The case against Rája Rampal Singh was won in the Privy Council, and the estate thus saved from serious loss. Another case was also taken to the Privy Council against Abdul Wahid Khan. This was lost; and the fact that all the amounts due from Abdul Wahid Khan have been realised shows that the litigation was, in fact, unnecessary. The debt on this estate is now a little under two lakhs, and its reduction in future will depend a good deal on the progress made in realising the amount due from Rája Rampal Singh.

No. 38, *Binohra (Court of Wards). Normal income Rs.* 12,700; *deficit on* 30*th September*, 1885, *Rs.* 27,830.

The collections of current rents were excellent, only Rs. 350 being left unrealised. The arrears of other seasons are heavy, and it might have been expected that more than Rs. 721 would be collected on this account. The collections of takávi and miscellaneous demands have not been very successful, nearly half the demand in each case being uncollected. The amount paid towards reduction of debt was Rs. 3,052, which is more than the annual instalment the estate is under obligation to pay. The Assistant Commissioner refers to certain orders of Government as preventing his placing the estate on a satisfactory financial position. He has apparently omitted to notice that he was asked to refer the question

again for orders if the arrangements suggested could not be carried out.

No. 39, *Gaura Kusehti (Court of Wards). Normal income Rs.* 77,700; *deficit on* 30*th September*, 1885, *Rs.* 19,500.

The collections of current rents were very good, and of the arrears nearly one-half was realised. Seven wells were constructed during the year, one embankment was built, and advances for cattle and sugarcane were made to cultivators. A sum of Rs. 3,000 was spent in purchasing a house at Lucknow, and a further sum of Rs. 4,600 in buying up under-proprietary rights, while nearly Rs. 17,000 were paid in reduction of debt. The marriage of the talúqdár this year will entail some expense, and retard the final clearance of the estate, which, however, should not under any circumstances take above two years.

Five notices of ejectment were issued by a mistake which was rectified, and the tenants restored to their holdings.

No. 40, *Udrehra (Court of Wards). Normal income Rs.* 37,700; *deficit on* 30*th September*, 1885, *Rs.* 49,000.

The collections of current rents were excellent, only Rs. 858, out of a demand of Rs. 37,700, being left uncollected. The arrears of past years are very heavy, and little progress was made in realising them.

Mr. Evans makes the following remarks on the subject: "Nearly Rs. 18,000 therefore represent the loss caused to the estate by the bad seasons of 1285 fasli and 1288 fasli; in other words, one-half of the annual demand. Similar losses must have been incurred on all the estates in this part of the province. The tenants are now recovering from these bad seasons; but there can be no doubt that the proper remedy in such cases is *prompt* remission when it is ascertained that the crops have failed. Remissions granted years after, when it has been found a hopeless task to collect the arrears, are not of much good, as a great many tenants have been obliged to abscond, and seek a living elsewhere." This is a matter in which the local officers have the requisite

information and the responsibility. The amount paid towards principal and interest of the debt comes to Rs. 11,795, or considerably more than the stipulated sum, Rs. 7,000. It is estimated that the estate will be clear of debt in six years. An unsatisfactory feature in the management of this estate, which is in the hands of the talúqdár's son, was the issue of no less than 43 notices of ejectment. No such notices should have issued without the sanction and countersignature of the estates' officer.

No. 41, *Sehgaon Pachhimgaon (Court of Wards). Normal income Rs.* 9,700; *deficit on* 30*th September*, 1885, *Rs.* 8,500.

A change was made in the management of this estate with the best results. The collections were admirable, and a beginning was made in effecting improvements, which are, the Commissioner reports, likely to be undertaken on a larger scale in future years. The debt to the London and Delhi Bank which bore 9 per cent. interest was cleared off by a loan from another estate at 6 per cent., which will it is thought be repaid in four years.

No. 42, *Bodhanpur (Court of Wards). Normal income Rs.* 2,250; *credit balance on* 30*th September*, 1885, *Rs.* 287.

The collections in this small estate were excellent. One well is under construction by a tenant who has been promised land for a grove on its completion.

No. 43, *Lodhwari.*

This estate was handed over to the talúqdár during the year, and an account of it is given in the body of the report.

Sultanpur District.—Officer in charge, Major Grigg, Deputy Commissioner.

No. 44, *Kurwar (Encumbered Estate). Normal income Rs.* 1,12,078; *deficit on* 30*th September*, 1885, *Rs.* 1,00,200.

The collections in Fyzabad were fair and in Sultanpur excellent, the proportion to the current demand being

for the former 96·30 and for the latter 99·78. The year being a prosperous one, the rents were collected without much difficulty. The debt has been reduced from Rs. 1,14,000 to Rs. 1,00,200. In this latter sum is included Rs. 1,200 on account of takávi, taken from Government during the year, so that the actual debt now stands at Rs. 99,000. It would have been reduced still further but for the payment of Rs. 9,276 on account of debts incurred by the late Ráni since the estate came under management. In both districts the rental was increased by the displacing of middlemen or the enhancing of rents that were unduly low.

Nineteen wells have been constructed by tenants-at-will and under-proprietors, &c., whilst the estate has undertaken the construction of twelve wells and has made three embankments and completed two tanks in Sultanpur. In the Fyzabad portion six wells have been built and two tanks repaired. Besides the above, sundry minor improvements have been made in both portions. The experiment connected with the sinking of tube-wells has not yet been made, the necessary apparatus not having been obtained in time. A fair trial is about to be given to the system, which, if successful, promises the most beneficial results. The planting of fodder trees, commenced by Mr. Wells, was continued. By the death of Ráni Kishnath Kunwar, in June last, the estate passed to the nearest-of-kin, Partab Bahadur Singh, the ward of Walipur, a boy of 10 years, who now lives in Sultanpur.

No. 45, *Mahona (Encumbered Estate). Normal income* *Rs.* 46,160; *deficit on* 30*th September*, 1885, *Rs.* 57,500.

In this estate also the collections were excellent: and the current rents were practically realised in full. The arrears of past seasons have been carefully examined by the Deputy Commissioner when in camp, and those items which it is impossible to realise have been struck out. There still remains a large sum, however, to be collected. Over Rs. 1,000 of this is covered by bonds and is payable by instalments the collection of which must necessarily be a lengthy business. Endeavours are being made to clear up these old outstanding claims.

The debt has been reduced from Rs. 68,000 to Rs. 57,500.

During the year 11 wells were constructed by tenants, and as many more, unfinished in the previous year, were completed and brought into use. The estate has built two wells, completed a third, and partly constructed a fourth. The improvements made of late have resulted in an immediate increase of rental.

There was a slight improvement in the collection of decreed dues. The estate was involved in a good deal of litigation, and was plaintiff in no less than 46 cases. As the decrees are frequently of little value when obtained, the Deputy Commissioner should do his best to check this tendency to resort to the courts.

No. 46, *Partabpur (Encumbered Estate). Normal income Rs.* 8,470; *deficit on* 30*th September*, 1885, *Rs.* 9,800.

The circumstances of this property, made up as it is of small holdings situated in several villages, do not admit of much being done in the way of improvements. A muáfidar has built a well and the estate with the aid of Government takávi is completing a well begun 10 or 11 years ago. The Deputy Commissioner was unable to induce the co-sharers in the estate to undertake any improvements. The collections were good, being 99·91 per cent. of the hál demand. The debt has been reduced from Rs. 11,600 to Rs. 9,800.

No. 47, *Bhadayan (Court of Wards). Normal income Rs.* 30,600; *deficit on* 30*th September*, 1885, *Rs.* 16,570.

The proportion of the current demand collected was 99·88 per cent. The debt was reduced notwithstanding a large outlay on personal expenses, from Rs. 20,000 to Rs. 16,500. The ward is making fair progress with his studies. Tenants constructed two wells. The estate has dug one tank, erected an embankment, and is building three large masonry wells, two of which are nearly completed. Some two miles of road avenue have been planted with trees by the estate or the tenants.

No. 48, *Pali (Court of Wards). Normal income Rs.* 16,800; *credit balance on* 30*th September,* 1885, *Rs.* 15,200.

The collections were decidedly good; the current rents being got in nearly in full, while a considerable impression was made on the old arrears. About Rs. 1,000 of the latter are still uncollected; but of this sum the greater part has been found to be irrecoverable, and proposals are to be made for striking it off the rent-roll.

As regards improvements, one tenant has succeeded in building a well, and a bania has built a drinking well; whilst two more tenants who have agreed to build three wells have, from the difficulties attending construction, hitherto failed to carry out their intention. The estate has made two good substantial bandhs, and is building three wells. Wells are much wanted, and iron tubes may, when sand is met, prove of much use.

Bábu Kishundat Singh, the young ward, takes an intelligent interest in the management of his property.

No. 49, *Unchgaon (Court of Wards). Normal income Rs.* 15,668; *credit balance on* 30*th September,* 1885, *Rs.* 26,900.

Of the balance at the credit of this estate a sum of over Rs. 6,000 is uninvested. The Deputy Commissioner has been disappointed in his endeavours to secure a good investment in landed property, and has decided to purchase promissory notes.

The collections were very good. The only improvement attempted was the completion of a well commenced some years ago by the estate. Two tenants have built a couple of wells; but it is reported that there is not much necessity for the construction of masonry wells on this property. The ward is making fair progress with his studies, which were somewhat interfered with by his marriage ceremonies.

No. 50, *Walipur (Court of Wards). Normal income Rs.* 6,820; *credit balance on* 30*th September,* 1885, *Rs.* 18,535.

The whole of the current rents were collected, and of the arrears of past seasons only Rs. 14 remained outstanding at the close of the year.

Little was done in the way of improvements, but a well is in course of construction. One well was partly built by a tenant and two or three others, commenced in the previous year, were completed. The ward, who has now succeeded to the old and valuable property of Kurwar, resides at Sultanpur, and is making fair progress. It is proposed to engage for him the services of a duly qualified tutor.

Partabgarh District.—Officer in charge, Mr. D. C. Baillie, Assistant Commissioner.

No. 51, *Kaithola (Encumbered Estate). Normal income Rs.* 31,940; *deficit on* 30*th September,* 1885, *Rs.* 20,100.

The current rents were practically collected in full, as well as the greater part of the arrears. There was an increase of about Rs. 1,500 in rents, of which over Rs. 1,000 was due to enhancements. The Commissioner appears to agree with the estate's officer that the enhancement was moderate, and not more than the improvements effected by the estate entitled it to impose. Further enhancements, however, have been made on a systematic plan for raising all rents to one standard, and in pursuance of this plan 35 notices of ejectment were issued, of which six were successfully contested. The action of the officer in charge in this matter does not seem to have been judicious. The mere fact that rents are lower than those of the surrounding fields is not necessarily a justification of enhancement.

The management has undertaken the responsibility of some debts privately contracted under special circumstances by the Ráni, for which she was paying exorbitant interest; and there is therefore an increase in the amount shown as owed.

The principal improvements are two wells started by Major Grigg. One, a large one, has been successfully completed and is expected to irrigate a large area. Unexpected difficulties have retarded the construction and increased the expense of the other; and ultimate success is still doubtful.

No. 52, *Rajapur (Encumbered Estate). Normal income* *Rs.* 12,850; *deficit on* 30*th September*, 1885, *Rs.* 5,424.

The current rents were collected in full: and the arrears on account of past years are insignificant. The collections of miscellaneous items of revenue were also good. A good deal has been done in previous years for the improvement of this estate; and further improvements are reported not to be necessary. Much assistance was given by the eldest son of the talúqdár, who takes considerable interest in the management of the property. The suggestion made last year, that it should be considered whether the proprietor could pay off the remainder of the debt and resume the management, has been entirely lost sight of by the Deputy Commissioner and his assistant. The suggestion should be acted on now, and proposals submitted if possible for the release of the estate. The debt is little over Rs. 5,000, and the proprietor's son is quite capable of being entrusted with the management. In this estate, as in Kaithola, the number of notices issued simply with a view to enhancement of rent attracts notice.

No. 53, *Madhpur (Court of Wards). Normal income* *Rs.* 6,810; *deficit on* 30*th September*, 1885, *Rs.* 15,080.

The collections were good, and would probably have been better still had it not been for the death of the manager. There was little expenditure on improvement beyond the construction of a few small bandhs and the repairing or completing of the wells.

A Behea sugarcane mill was purchased; but the tenants—contrary to almost universal experience elsewhere—were slow to use it. As in other estates, an unsatisfactory feature of the management was the issue of numerous notices of ejectment. A few years ago the financial condition of the estate appeared hopeless, and the charges for

interest alone threatened to absorb the whole of the assets. The bulk of the debts were consolidated by a loan of Rs. 15,000 on the security of four villages. One or two years of good management have extricated the estate from its embarrassments, and the whole debt has now been paid off, with the exception of this loan of Rs. 15,000, the mortgage on which it was taken being irredeemable for 12 years. The Deputy Commissioner should ascertain whether the mortgagee will consent to modify the terms of the agreement and allow the village to be redeemed at an earlier period. He is reported to be getting 8 per cent. interest on his money; but as the loan was taken to relieve the estate from debts bearing a much higher rate, the transaction has not been an unfavourable one.

No. 54, *Bargaon (Court of Wards). Normal income Rs.* 21,480; *deficit on* 30*th September*, 1885, *Rs.* 74,100.

The collections were excellent, the current rents being practically paid in full, and the arrears reduced by half. An unsatisfactory feature in the collections was, however, the realisation of nearly Rs. 1,700 in advance. A loan of Rs. 16,000 was contracted in order to redeem a village mortgaged with possession to Bábu Mahesh Bakhsh Singh, on terms exceptionally favourable to the mortgagee.

Advances were made for the purchase of plough-cattle, but not for the construction of wells. The estate's officer inspected the wells made under Major Grigg's supervision in the previous year, and found that the tenants had done their work well. Two wells were built by the estate; an unsuccessful attempt to renew an old one was made, and embankments were repaired and extended.

The debts of the estate now stand at Rs. 74,000. The future reduction should be more rapid now that the village of Prithipur has been redeemed.

No. 55, *Shamaspur (Court of Wards). Normal income Rs.* 25,070; *deficit on* 30*th September*, 1885, *Rs.* 9,020.

The collections, though the percentage of realisations was less than in other estates, were good. The rent-

roll is in excess of last year's by about Rs. 1,200, enhancements producing an increase of Rs. 800. No account of these is given, and it is difficult, therefore, to say whether they were justified. Improvements were vigorously prosecuted, a considerable sum being spent on the construction of wells and embankments. Over Rs. 10,000 were paid towards the debt, which stands now at Rs. 9,000, a sum that can easily be paid off in one year.

No. 56, *Pandwasi (Court of Wards). Normal income Rs.* 250; *deficit on* 30*th September*, 1885, *Rs.* 990.

This small estate consists of a share of a village belonging to a minor, some 15 years of age. Under the management of his mother, it was being rapidly encumbered, and the Deputy Commissioner therefore took possession in November, 1884. During the year a part of the land was held by creditors at low rates, and the total income was only sufficient to balance the expenditure. In future the rental will be better, through the leasing of this land at fair rates. The demand has in this way been increased from Rs. 250 to Rs. 410. A few inexpensive improvements appear to be practicable, and to be much required.

No. 57, *Dahyawan estate (Court of Wards). Normal income Rs.* 3,900; *credit balance on* 30*th September*, 1885, *Rs.* 12,480.

This estate was taken under management on the death of Bábu Mahesh Bakhsh Singh, on behalf of his minor nephew, who is the heir.

The estate was under management only for four months; and the attention of the officer in charge has been directed principally to ascertaining the precise financial position of the estate, which has been found to be in a very flourishing condition, and to making arrangements for realising or securing the debts due. The affairs of this estate should continue to receive special attention at the hands of the Deputy Commissioner until the accounts have been got into thorough order and the surplus funds invested in an advantageous and manageable manner.

APPENDICES.
